The ‘trend is your friend’ is an old trading and investing adage. What exactly is trend? How is it determined? When will it change? We will investigate how to track trend with trend lines, moving averages, time and other trend indication tools. It is important to confirm when trend has reversed. Getting in with the trend and getting out when the trend has reversed tends to maximise profits and minimise loss of paper profits. A simple trend-trading plan will be demonstrated. Charting will also be covered because it is key to establishing trend as part of technical analysis and charting can be a vital adjunct to ‘fundamental analysis’ in financial markets. No prior experience required.

HERITAGE WALKS

SHOPS, COTTAGES & PLACES OF PRAYER

The south-west corner of Adelaide was a predominantly working class area with many small industries providing work. Unlike other predominantly residential areas of 19th century Adelaide there are no grand homes and the workers’ cottages have largely survived due to the level of industry that kept the developers at bay in the latter 20th century. This walk will reveal parts of Adelaide unknown to all but the locals. Graham Jaunay will reveal a number of other surprises during the course of this walk that will conclude near the starting point.

OLD GHAN & AFGHAN CAMELEERS
How did Afghan cameleers and the railway system both provide critical lifelines to settlers and assure the economic advancement to South Australia? The role of the Afghan cameleers was as a critical transport network and lifeline in SA’s and NT’s arid interior that supported, businessmen, wool and beef producers and mining companies in the 1860s, 1930s and thus the survival of the colony, then state. As a railway employee or passenger, or a cameleer, experience rail and cameleer as ‘collaborators’ but also face their challenges and risks, even their demise. What is the legacy of both? How did the Great Northern Railway acquire the nickname ‘ghan’ train and its icon, both used today?

AN INTRODUCTION TO ROMAN HISTORY
The aim of this course is to introduce Roman History to people who have always been interested in it but feel lost and don’t know where to start. We look at the 3 periods: Rome Under the 7 Kings, Rome Under the Republic and Rome Under the Empire. It examines the role played by key personalities such as Hannibal, Spartacus, Julius Caesar and the emperors as well as the social causes behind the main events. Finally it analyses the overwhelming influence Roman society has had on our own. At the end of the course people will then be in a position to further their knowledge by tackling the Roman writers and the works of modern specialists.
